DETAILED ACTION

Claim Objections

- 1. Claim 27 is objected to because of the following informalities: In line 9, "the second semiconductor top" should be replaced with -- a die package top--, as disclosed in the Specification. Appropriate correction is required.
- 2. Claims 28-42 are objected due to their dependency on objected claim 27.

Allowable Subject Matter

- 3. Claims 43-45 are allowed.
- 4. Claims 27-42 would be allowable if claim 27 is rewritten or amended to overcome the objection set forth in this Office action.
- 5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record either singularly or in combination failed to anticipate or render obvious the limitations of having the encapsulation structure top and a top surface of the package being equidistantly from a surface of a module substrate as required by claim 43.
